

The screenshot shows the AWS Management Console interface for the us-east-1 region, specifically the Security Groups page. The page title is "Security Groups (4) Info". Below the title is a search bar with the placeholder text "Find resources by attribute or tag". A table lists the security groups:

	Name	Security group ID	Security group name	VPC ID
<input type="checkbox"/>	-	sg-0143e44904c8027dd	default	vpc-0b8031a09e...
<input type="checkbox"/>	-	sg-0f47da4074adec5d7	launch-wizard-2	vpc-0b8031a09e...

The left sidebar contains navigation links for various AWS services, including Images, Elastic Block Store, and Network & Security. The top navigation bar includes the AWS logo, a search bar, and icons for various services like CodeCommit, CodeBuild, S3, Elastic Container Registry, CloudFormation, Elastic Beanstalk, Elastic Kubernetes Service, CloudFront, and EC2. The bottom of the screen shows the Windows taskbar with various application icons and the system clock.
